MATHEMATICS OF THE USSR—IZVESTIYA

Том 51, №№ 4–6, 1987

Volume 31, Numbers 1–3 Pages 1–666

Volume Index of Authors

Abrashkin, V. A. Galois moduli of period p group schemes over a ring of Witt vectors 1

Balashova, G. S. On the extension of infinitely differentiable functions 603

Bogoyavlenskiĭ, O. I. Integrable dynamical systems associated with the KdV equation 435

——, Some constructions of integrable dynamical systems 47

Dmitruk, A. V. Quadratic conditions for a Pontryagin minimum in an optimal control problem linear in the control. II. Theorems on weakening equality constraints 121

Dolzhenko, E. P. and Danchenko, V. I. Mapping of sets of finite α-measure by rational functions 621

Dybin, V. B. One-dimensional singular integral equations with coefficients vanishing on countable sets 245

Gurzo, G. G. Systems of generators for centralizers of rigid elements of the braid group 223

Guseĭnov, G. Sh. On the spectral theory of multiparameter difference equations of second order 95

Ismagilov, R. S. Application of the group algebra to the problem of the tail σ-algebra of a random walk on a group and the problem of ergodicity of a skew-product action 209

It·s, A. R. and Kapaev, A. A. The method of isomonodromy deformations and connection formulas for the second Painlevé transcendent 193

Karatsuba, A. A. The distribution of pairs of quadratic residues and nonresidues of a special form 307

Khrennikov, A. Yu. Infinite-dimensional pseudodifferential operators 575

Kudryavtsev, S. N. On approximations of compact sets of functions by piecewise polynomial surfaces 455

Matveev, S. V. Transformations of special spines and the Zeeman conjecture 423

Mokhov, O. I. On the Hamiltonian property of an arbitrary evolution system on the set of stationary points of its integral 657

Plaksin, V. A. The distribution of numbers representable as a sum of two squares 171

Plamenevskiĭ, B. A. and Senichkin, V. N. On representations of an algebra of pseudodifferential operators with multidimensional discontinuities in the symbols 143
Pustyl'nikov, L. D. On oscillatory motions in a certain dynamical system 325
Rapinchuk, A. S. Multiplicative arithmetic of division algebras over number fields, and the metaplectic problem 349
Razmyslov, Yu. P. Simple Lie algebras in varieties generated by Lie algebras of Cartan type 541
Sergeĭchuk, V. V. Classification problems for systems of forms and linear mappings 481
Solonnikov, V. A. On the transient motion of an isolated volume of viscous incompressible fluid 381
Starkov, A. N. An ergodic decomposition for homogeneous flows 503
Tankeev, S. G. Cycles on simple abelian varieties of prime dimension over number fields 527
Vladimirov, V. S. The Wiener-Hopf equation in Nevanlinna and Smirnov algebras 77
Zhitarashu, N. V. The L_2-theory of generalized solutions of general linear model parabolic boundary value problems 273
Ziglin, S. L. Splitting of the separatrices and the nonexistence of first integrals in systems of differential equations of Hamiltonian type with two degrees of freedom 407
Zorich, A. V. The quasiperiodic structure of level surfaces of a Morse 1-form close to a rational one–a problem of S. P. Novikov 635
